

NIKHIL JANGIR

Sr. Engineer – Automation & Industrial Maintenance | Team Leader

+91 84471 07097 | nikhiljangirharyana@gmail.com | nikjangir.github.io | linkedin.com/in/nikhiljangir | Narnaul, Haryana – 123001

PROFESSIONAL SUMMARY

Automation & Maintenance Engineer with **7+ years** of experience in **wire manufacturing, electrode manufacturing, wear & tear solutions, and machine manufacturing**. Strong exposure to **mobile phone manufacturing (DBG), camera module manufacturing (Sensetek), and display manufacturing (TXD)**. Expertise in plasma cutting machines, welding equipment, VFD programming, PLC/HMI support, robotic arms, and preventive maintenance. Skilled in **documentation and reporting systems** including machine history cards, preventive/predictive maintenance records, breakdown analysis, and CAPA reports. Proven leadership in managing engineering teams, implementing kaizens, and delivering customer site solutions.

CORE COMPETENCIES

Wire Manufacturing Machines (8-head & 9-head)	Electrode Manufacturing	Plasma Cutting & Welding Machines
CUT60H, CUT100H, CUT160H, 400A, 1200A	Mobile Phone Manufacturing	Camera & Display Module Support
PLC/HMI – Panasonic FPWIN GR7, Wienvue	VFD Drives	Arduino-based Motor Troubleshooting
Panel Commissioning Transformer & Plant Maintenance	Preventive, Predictive & Breakdown Maintenance	AC Systems Maintenance
Machine History Cards Breakdown & Spare Parts Records	LOTO Compliance Machine Status Reports	8D Reports CAPA 5 Why Analysis
Robotic Arm Operation (J1–J6, Cartesian Axes)	Jigs & Fixtures RCA Kaizen Implementation	TPM & 5S Team Leadership Inventory & Scrap Control

PROFESSIONAL EXPERIENCE

Sr. Engineer – Automation & Industrial Maintenance

March 2026 – Present

WearResist Technology Pvt. Ltd. · Vadodara, Gujarat

- Operated and maintained **wire drawing machines (8-head & 9-head)** ensuring continuous production.
- Oversaw **electrode manufacturing operations** including consumables management and quality checks.
- Maintained and repaired **plasma cutting machines and welding machines**.
- Delivered **remote troubleshooting** for customer machines, minimizing breakdowns.
- Specialized in **diode-based metal cutting machines** and advanced VFD programming.
- Executed **Arduino-based motor troubleshooting** and automation upgrades.
- Spearheaded a **positioner project for ring-type welding jobs**, including panel commissioning, transformer maintenance, **plant maintenance**, and AC preventive maintenance.
- Maintained detailed **machine history cards, breakdown history records, spare parts records, and machine status reports**.
- Ensured **LOTO compliance** during maintenance activities.
- Applied structured problem-solving tools: **8D reports, CAPA, and 5 Why analysis**.
- Resolved plant-level machine issues during customer site visits at **Adani Ambuja Cements Ltd.**

- ▶ Leading a team of **12 engineers**, mentoring and coordinating with management for process improvements.

Machine Repair Engineer (L4.2) / Team Leader

July 2023 – March 2026

DBG Technology (India) Pvt. Ltd. · Bawal, Haryana

- ▶ Led and managed a team of maintenance technicians manufacturing **mobile phones** for **Xiaomi, OPPO, and Vivo**.
- ▶ Coordinated daily maintenance schedules with production planning.
- ▶ Directed breakdown troubleshooting, preventive maintenance, and machine modification projects.
- ▶ Hands-on repair and calibration of **Battery Rolling Machines, BTB Pressing Machines, CCD Vision Inspection, Plasma Cleaning Machines, Glue Dispensing Machines, Idle Current Testers, Screw Fastening Machines, Zebra Printers**.
- ▶ Supported **RF testing (4G/5G)** with CMW100/CMW500 instruments.
- ▶ Operated and calibrated **industrial robotic arms (J1-J6, Cartesian axes)**.
- ▶ Directed in-house jig & fixture redesigns, reducing spare consumption and costs.
- ▶ Implemented **PCN/ECN documentation** for new model ramp-ups.
- ▶ Mentored and trained junior technicians, ensuring **TPM & 5S compliance**.

Engineer – Machine Maintenance & Process Support

Nov 2022 – Jul 2023

Sensetek Optical (India) Pvt. Ltd. · Gurgaon

- ▶ Maintained and repaired **camera module manufacturing machines**.
- ▶ Performed preventive maintenance, calibration, and troubleshooting.
- ▶ Supported process engineers in equipment qualification and fixture changeovers.
- ▶ Conducted **RCA & CAPA** for recurring machine faults.
- ▶ Ensured TPM & 5S compliance.

Graduate Engineer Trainee (GET) – Engineering & Quality Support

Jan 2020 – Oct 2022

TXD Technology (India) Pvt. Ltd. · Bawal, Haryana

- ▶ Operated and maintained **mobile display assembly machines (BL and TFOG)**.
- ▶ Assisted in equipment setup, calibration, and preventive maintenance.
- ▶ Supported process verification and machine issue resolution.
- ▶ Conducted basic quality checks and ensured compliance with customer standards.

Supervisor – 33/132kV Substation

Aug 2019 – Jan 2020

Adani Power · Pokhran, Rajasthan

- ▶ Supervised HV substation operations ensuring safety & reliability.
- ▶ Exposure to **SCADA systems**, switchgear, and protection relays.

KEY ACHIEVEMENTS

- ▶ Diagnosed and fully restored a **Rhino Cut 160** plasma cutter at **Ambuja Cement (Farakka)** through component-level PCB repair — IGBT module replacement, HF circuit restoration — returning the unit to full production service.
- ▶ Built **WearResist's in-house maintenance documentation system from scratch** — 10 bilingual (English/Hindi) checksheets, machine history cards, and LOTO procedures aligned to ISO 9001 & ISO 45001.
- ▶ Spearheaded in-house **jig & fixture redesign project** at DBG Technology, reducing spare part consumption and machine downtime.
- ▶ Managed **PCN/ECN documentation** for new model ramp-ups (Xiaomi, OPPO, Vivo) at DBG Technology with zero compliance failures.
- ▶ Delivered **customer site troubleshooting** at Adani Ambuja Cements Ltd. (Farakka & Sankrail) — diagnosed WRT-CUT100H plasma units and resolved field faults, preventing extended production stoppages.

TECHNICAL SKILLS

Machines

Wire Drawing (8-head & 9-head), Electrode Mfg, Plasma Cutters (CUT60H / CUT100H / CUT160H / 400A / 1200A), Welding Machines, Battery Rolling, BTB Pressing, CCD Vision Inspection, Plasma Cleaning (SDP), Glue Dispensing, Idle Current Testers, Screw Fastening, Zebra Printers

PLC / HMI	Panasonic FPWIN GR7, Wienview HMI, Delta, Siemens (support), Mitsubishi MELSERVO-JE (AC Servo)
Drives & Panel	VFD Programming & Fault Diagnosis, Panel Commissioning, Transformer Maintenance, AC Systems
Electronics	Component-level PCB Diagnosis & Repair, IGBT Modules (SKM200GB12E4), Diode Modules, HF Spark Gap Circuits, Diode-based Cutting Systems
Testing	RF Testing 4G/5G (CMW100 / CMW500, Eragon, HQ Software), Arduino-based Motor Diagnostics
Robotics	J1-J6 Robotic Arms, Cartesian Axes — Operation & Calibration
Documentation	ISO 9001 / ISO 45001, 8D Reports, CAPA, 5 Why, RCA, Kaizen, Machine History Cards, Breakdown Records, Spare Parts Records, LOTO, Machine Status Reports, PCN/ECN, TPM, 5S
Software	MS Excel, MS Word, PLC/HMI Config Tools.

EDUCATION

B.Tech - Electrical Engineering

2015 - 2019

Rajasthan Technical University (RTU), Kota

ADDITIONAL INFORMATION

Languages	: English, Hindi
Relocation	: Open to India & Overseas
Customer Support	: Experienced in remote & on-site troubleshooting
Portfolio	: nikjangir.github.io
LinkedIn	: linkedin.com/in/nikhiljangir
